

7 REASONS TO BUY CLEAN BURN

Take The Clean Burn Challenge

	Clean Burn®	Other
1. Engineered from the ground up to burn used-oils	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Safety listed to work with every type used-oil and fuel oil	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. High strength non-welded flue tubes	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. The industry's cleanest-burning most efficient used-oil heating system	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Longest cleaning intervals of any unit in its class	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Authorized Clean Burn Distributor Service & Support	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Industry-leading Warranty	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Fabricated sheet-metal or plastic coupling
 Plastic gears, grease-packed
 Low torque fan-cooled open motor

Pumps oil a maximum 50' distance, with minimum 50°F oil temperature.

Steel drive shaft
 Heavy duty steel gears in oil bath
 High torque, totally enclosed motor

Pumps oil a maximum 300' distance, with minimum -40°F oil temperature. Nothing else compares for reliability and for providing more installation options.

vs.

Typical "Off-The-Shelf" Competitor's Pump

- Plastic Coupling or Fabricated Sheet-Metal
- Plastic Gears, Grease-Packed
- Low-Torque Fan-Cooled Open Motor

Clean Burn's Powerful & Dependable Metering Pump

- Steel Drive Shaft
- Heavy Duty Steel Gears In Oil Bath
- High Torque, Totally-Enclosed Motor

NOTHING ELSE MATCHES THE POWER & DEPENDABILITY OF A CLEAN BURN

For reliability and installation options, nothing else compares. Superior Clean Burn pumping systems carry the potential to pump oil up to 300' distance with minimum -40F degree oil temperatures, and are powerful enough to draw oil stored in outside tanks.
