

Proven Technologies. Engineered Like No Other Used-Oil Heating System.

**What You See
Makes It A Clean Burn.**

**What You Can't See
Makes It Burn Clean**

Theirs

Typical "Blast Tube" Low-Efficiency Design

- Less Heat Delivered To Your Work Area
- Lower Surface Area For Heat Transfer
- More Heat Escapes Through Your Chimney
- Require Excessive Maintenance
- Shorter Equipment Life

Clean Burn

Advanced "Clean Burn" High-Efficiency Heat Exchanger

- Maximum Heat Delivered To Your Work Area
- 250% More Surface Area For Greater Heat Transfer (compared to competitive units)
- Less Heat Loss Through Your Chimney
- Less Maintenance
- Longest Equipment Life
